Subject: #GivingTuesday - Give a little, Get a lot!

CFE/Save the Sound members are the backbone of our organization. Whether they are leading a cleanup, hosting a fundraiser, or making a #GivingTuesday contribution, their actions fuel the fight to protect the resources you need and the wildlife and places you love.

They also receive special invites to events like Paddle Across the Sound, or to take a Polar Plunge for Plum Island. They get invited to town halls and lectures to learn more about local environmental matters, and they receive a quarterly newsletter filled with details about regional, state, and federal environmental lobbying efforts. And they attend the annual meeting, where they can meet and network with fellow environmental activists.

Make a #GivingTuesday donation now for as little as \$25, and become a member today! **Or give the gift of Membership to a loved one.**

Pictured here: Nancy Vincent of SUP Westchester and other Save the Sound members, with just some of the 37+ pounds of trash they hauled out of the harbor in Mamaroneck this summer, including 183 plastic water bottles! Thanks, Nancy!
